In The Regional Municipality of York, residents are required to use certified compostable bags to line their Green Bin containers.

Certified compostable bags:

- Are made with renewable resources
- Break down naturally into compost, unlike plastic bags that can take up to 1,000 years to break down
- Help to reduce the use of plastic bags, often a source of litter and potential health hazards for wildlife

Both paper bags and certified compostable bags displaying the compostable logo are acceptable liners.

York Region's Green Bin program accepts a wide range of materials including the following:

- Breads, pastas and cereals
- Coffee grounds, filters and tea bags
- Dairy products
- Diapers and sanitary products
- Eggs and egg shells
- Fish and shellfish
- Fruits and vegetables
- Hair and nail clippings
- Houseplants, flowers and plant clippings
- Meats including bones, fat and skin
- Microwaveable popcorn bags
- Muffin papers
- Nuts and seeds
- Paper towels and facial tissue
- Pet waste, including litter, fur, feathers and bedding
- Pizza boxes
- Shredded paper

Not sure if it goes in the Green Bin?
